

Profile

The Aomori Bank, Ltd. has traveled the path of sound business management for almost 130 years since its founding in 1879. In 1943, five banks based in Aomori Prefecture merged to form the present-day Aomori Bank, following which we have continued our strong growth as the region's leading financial institution.

In April 2007, we formulated our 12th three-year medium-term business plan "Step up Plan 12th". Based on this plan, we aim to increase corporate value and to be able to grow along with local community.
